Client Sector	Retail Communications
Project Value	£225,000
Services Provided	Programme Management Project Management Cost Management
Project Size	
Architect	
Contractors	

Rider Levett Bucknall was called in to provide Project Management support to resolve a project that was delayed in delivery.

The project comprised the construction of a new Telecoms Centre, which provides assisted sales within a Tesco Store and was completed successfully. As a result, we were recruited to deliver the second Telecoms Centre which was completed ahead of programme and within budget.

We were then awarded the appointment to cost and programme manage a further 4 stores – each of which has now been completed on or ahead of time and within budget.

The client is so pleased with these results that they have now confirmed their intention to appoint Rider Levett Bucknall for the next phase of the project which is valued at over £8m and will run for 16 months.
