

Project Profile

White House Visitor Center | Washington, DC

Client	LORD Cultural Resources, Planning & Management
Project Value	Confidential
Services Provided	Cost Estimating
Project Size	18,000 sq ft
Owner	National Park Service

Overview

Project includes modernization and restoration work within the main Visitor's Hall at the White House. The project will add new displays, a new retail area, a re-creation of the Oval office, and new interior cinema experiences to existing Visitor's Center, established in 1993 by the National Park service. The upgraded center will also receive new security check-in arrangements for visitors in light of new Homeland Security recommendations.
