

Project Profile

Police Headquarters | Hong Kong

Client	Hong Kong Government
Project Value	HKD 440 million
Services Provided	Quantity Surveying
Project Size	47,700 m ²
Architect	Architectural Services Department, Hong Kong Government

Overview

The new police headquarters is a 33-storey tower at the junction of Arsenal Street and Queensway. The tower provides secure accommodation for the Crime Wing plus other non-crime departments, such as the Communications Branch and the Information Technology Branch. Special facilities, such as video interview rooms and an identification parade suite, are also incorporated in the design.
